CERTIFICATIONS

- Cloud Foundations - **AWS**
- Associate Cloud Engineer - **Google**
- Android application - **Google**
- Dotnet full stack - **wipro talent next**

SKILLS

- Python, java
- HTML, CSS, MySQL
- Operating system
- Artificial Intelligence
- Image Processing
- Problem solving

ACHIEVEMENTS

- I earned a 29 badges in the google cloud skill boost
- I am CC club member (1 time)
- I am also a google certified (Android Application)

PROJECTS

Covid 19 Analyzation

Tools : Dataset and R-Programming,

Here we consider the dataset and calculate the means of men and women death rates, age of death people and alive people and Overall death rate of dataset. Finally we proved that R-programming helps to perform statistical analysis.

Farmer Slice

Tools : React js, Php, MYSQL, HTML, CSS

In this project, we have farmer and retailer and the retailer will buy the farmers crop and retain the profit to farmers. Here the main aim is farmer get the profit in worst situations also like floods, heavy rains.

Job Recommendation System

Tools : Machine Learning, Natural language processing, HTML, CSS, Php, SQL

In this project, we have recruiter login and student login. Based on student skills, certificates and preferences we suggest the related jobs to the students. In this we have resume parsing technique to predict the job and we also store the student previous applied job details in database. The main aim is to recommend a related job to the student.
